

Savvy Quick-Solv Road Tar Remover

The only environmentally-friendly remover trusted to get the job done on Pennsylvania's roads.

SAVVY Quick-Solv is a ready-to-use citrus-based cleaner designed for dry or water-rinse cleaning of equipment. The product, effective for cleaning tar, greases, and asphalt on truck beds and non-porous surfaces, is made from a unique natural extract solvent. It replaces harmful, conventional petroleum hydrocarbon solvents. The low VOC formula rinses easily with water and works fast, leaving a fresh fragrance. The product contains no soy esters. Quick-Solv can be applied by either wiping, pouring, or spraying directly onto the surface.

VisionCorps is the exclusive supplier of asphalt cleaning products to PennDOT and the Pennsylvania Turnpike.

Contact Brian Braightmeyer, VisionCorps Channel Specialist, for pricing and orders.
