

# A BETTER CLEAN

Biorenewables  
Housekeeping Chemicals

VisionCorps' Biorenewables housekeeping chemicals are in compliance with the USDA Biopreferred initiative. This means that our chemical formulations are made of at least 50% biorenewable materials. These products are good for the environment with the cleaning strength of traditional cleaners. From restroom cleaner to graffiti remover, our full line of cleaners has it all.

## Supplies with a Mission

Your purchase of Biorenewables products through Imperial Dade supports employment for people who are blind and vision impaired through the AbilityOne program.

***VisionCorps provides the Federal Bureau of Prisons Biorenewables Housekeeping Chemical Standardization Program. Please contact Brian Braightmeyer at [bbraightmeyer@visioncorps.net](mailto:bbraightmeyer@visioncorps.net) for more information.***
